MBBS COLLEGE PREDICTION 2024

India's first-ever revolutionary one-point solution for Medical Aspirants with accurate college prediction, college comparison cut-off prediction & counselling support.

An Open Letter

TO MEDICAL ASPIRANTS

Dear Anuj,

You all must be Working hard with dedication towards cracking your NEET Exam.

In this journey, some of you may be attempting NEET for the first time, while for many, this could be a repeat attempt or their last effort to achieve their dream of getting into a good medical college.

The NEET Exam is becoming increasingly competitive with each passing year, and the number of aspirants is rising at a rapid pace. In 2021, the total number of applicants was 1,614,777. In 2022, it rose to 1,872,343, and in 2023, it reached 2,087,462.

As a medical aspirant you may be facing the pressure of the competition, and your parents must be facing difficulties in managing the exceptionally high expenses of your medical education in India. Over and above, there are so many external factors that disturb the admission process for many medical aspirants each year, leaving them with no choice but to drop out with a heavy heart.

For students wishing to pursue MBBS abroad due to budget constraints, our government has introduced new regulations known as FMGL Regulations 2021. These rules make it difficult to pursue MBBS abroad, as many countries are evidently not complying with these new regulations.

Given the complexities in MBBS admissions, it is highly desirable for a medical aspirant to choose the right mentor who can plan their admissions in a professional and scientific manner.

It is important to remember that there are no shortcuts in life and a good mentor, like Get My University, can hold your hand, nurture you, educate you, and empower you to find the right career path with admissions in your desired medical college.

With best wishes to you for a successful medicine career aimed towards serving the country and creating values for the people.

FACTORS AFFECTING ADMISSION OF A MEDICAL ASPIRANT

Following are some of the critical factors which needs attention for an advance planning once you are ready with your NEET scores to explore your MBBS admissions.

QUALITY OF INSTITUTION

Analyzing each point with meticulous detail and obtaining accurate information for almost all medical colleges spread across different regions is a challenging task.

Confusion about Quality of College (Infrastructure, Labs, Class Rooms, PG Programs MD/MS Running etc) Quality of Education (Faculty, Pass Percent), Clinical Facilities (Hospital, OPD, IPD, Patient Inflow), Hidden Factors (Untold Fee, Penalties, Fee Rise, Bond Conditions etc) Campus Facilities (Hostel Amenities, Quality Food, Faculty Support etc).

FINANCIAL PLANNING

It is crucial to plan your college choices according to your financial budget to avoid any surprises in the final stages of admission.

Budget Planning as per the NEET score, Bond/Bank Guarantee conditions of the colleges which can go to 3 years of tuition fees, Cost of counselling registration fees for counselling at different states and the refund conditions.

COMPLEX PROCESS

NEET Counselling is a highly complex process, involving different counseling rules for multiple states spread across multiple rounds.

Multiple forms filling with domicile conditions, Registration Fees and Refund Conditions, prioritizing states, counselling dates clash, bond conditions, participation conditions i.e. which round can enter and exit etc.

NEET MARKS & CUTOFF

Counseling requires careful planning with a micro-analysis of the cutoff based on past records and future trends

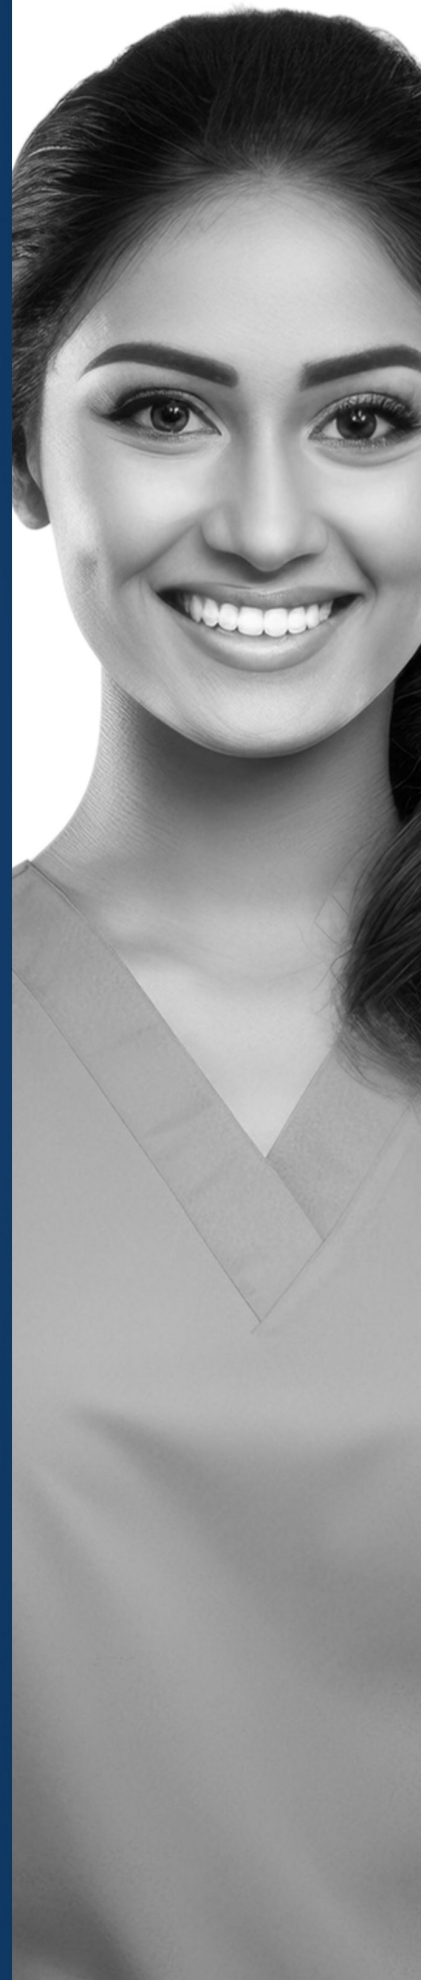

There is a high possibility of obtaining good medical options at a lower budget in later rounds of counseling rather than the first round. Factors such as the number of participants, the mode of counseling (online-offline), and fresh form filling in later rounds play a critical role in college allotment. A detailed cutoff analysis is essential for accurate predictions.

FAKE PROMISES & INCONSISTENT INFORMATION

Every year, hundreds of students are deceived due to a lack of proper information and their desire to secure the best college, disregarding the counseling process.

The high cost of medical education often puts parents in a state of anxiety, leading them to fall into the trap of false promises such as direct admissions, admission in government colleges under special quotas, and poor counseling processes.

CASE 4 – SELECTION OF A MEDICAL COLLEGE

IN THIS CASE WE WILL EXPLORE THAT IF A CANDIDATE IS FLEXIBLE WITH HIS LOCATION THERE IS A HIGH POSSIBILITY OF GETTING A BETTER MEDICAL COLLEGE IN TERMS OF EDUCATION AND EXPOSURE.

STUDENT PROFILE : NEET SCORE – 300, BUDGET – 80 LAKHS

MEDICAL COLLEGE OPTED BY STUDENT	REASON
NC MEDICAL COLLEGE, PANIPAT, HARYANA	LOCATION CLOSER TO DELHI

AS PER GET MY UNIVERSITY FOLLOWING OPTIONS SHOULD HAVE BEEN CONSIDERED BY THE CANDIDATE

MEDICAL COLLEGE PREFERRED BY TEAM GMU	REASON
NARAYANA MEDICAL COLLEGE, SASARAM, BIHAR	LOWER COST (67 LACS), BETTER ACADEMICS AND CLINICAL EXPOSURE
GAUTAM BUDDHA MEDICAL COLLEGE, DEHRADUN, UTTARAKHAND	JUST INCREASING BUDGET BY 3 LACS(83 LACS), BETTER LOCATION, BRAND VALUE, PATIENT EXPOSURE & STUDENT FEEDBACK

Candidate opted for NC Medical College Haryana just because of location preference to Delhi NCR. In best case he shall have opted for Narayana or Gauram Buddha Medical Colleges. A better guidance & research would have given him much better academic education and facilities for his overall learning.

CAMPUS VISIT AND COLLEGE REPORT BY TEAM GET MY UNIVERSITY

Get My University team always believes in "first seeing and then believing." The Medical College Campus Review is an unique initiative designed to visit medical colleges and analyze all major aspects in detail. This analysis aims to understand the actual clinical and non-clinical facts of the medical college and its hospital.

Team GMU has personally visited almost all medical colleges in the country and gathering direct student feedback. These regular college trips assist our expert team in collecting on-the-ground information and identifying both positive and negative issues faced by the students.

It is not just about selecting a medical college rather it is all about selecting the best medical college as per the conditions set by an aspirant. College review serves as a valuable resource for NEET aspirants, helping them to carefully choose their dream medical colleges.
